ARTICLE X
I - 1 - LIGHT INDUSTRIAL ZONE

10.1	Statement of Intent	10.6	Performance Standards
10.2	Principal Permitted Uses	10.7	Space Limits
10.3	Specifically Excluded Uses	10.8	Off-Street Parking and Loading
10.4	Permitted Accessory Uses	10.9	Exceptions and Modifications
10.5	Conditional Uses		

10.1 STATEMENT OF INTENT. This zone provides for a wide range of commercial and industrial uses, all of which shall be able to meet comparatively rigid specifications as to nuisance free performance. The zone specifically excludes residences on the theory that the mixture of residential use, and public services and facilities for residences with those for industry is contrary to the purposes of these regulations irrespective of whether the industry is encroaching on a living area or a living area is encroaching on an industrial area.

10.2 PRINCIPAL PERMITTED USES. The following are the principal uses in the I - 1 Zone:

10.21 Any use allowed in the C - 1 or C - 2 Zones, except that all dwellings and other types of living accommodations shall be prohibited except that one quarter for a watchman or caretaker shall be permitted as an accessory use for any permitted use occupying more than twenty thousand (20,000) square feet of lot area.

10.22 Any business, commercial or industrial use which can meet the performance standards set forth for this zone but not specifically excluded or specifically mentioned as belonging in another less restrictive zone.

10.3 SPECIFICALLY EXCLUDED USES. The following uses are hereby declared incompatible with the purpose of the I - 1 Zone and are hereby expressly excluded:

10.31 Dwellings, except for caretaker and watchmen quarters as set forth herein.

10.32 Public, parochial and private schools and colleges, except trade schools.

10.33 Hospitals, clinics, rest homes and other institutions for the housing or care of human beings.

10.34 Motels, hotels, and mobile home parks.

10.35 Any use not enumerated as permitted in this zone, but which is specifically in another zone or zones.

10.4 PERMITTED ACCESSORY USES. Any accessory use normally appurtenant to a permitted use shall be allowed provided such use shall conform with all performance standards set forth for this zone.

10.5 CONDITIONAL USES. Recreational uses which are temporary in nature and do not involve any appreciable amount of fixed construction and which will not interfere with the efficient functioning of the zone for its primary purpose of providing for manufacturing and heavy commercial establishments, may be allowed only upon appeal to the Board.

10.6 PERFORMANCE STANDARDS. The following performance standards shall apply:

10.61 Physical Appearance: All operations shall be carried on within an enclosed building except that new materials or equipment in operable condition may be stored in the open. Normal daily wastes of an inorganic nature may be stored in containers not in a building when such

containers are not readily visible from a street. The provisions of this paragraph shall not be construed to prohibit the display of merchandise or vehicles for sale or the storage of vehicles, boats, farm machinery, trailers, mobile homes or similar equipment when in operable condition.

10.62 Fire Hazard: No operation shall involve the use of highly flammable gasses, acid, liquids, grinding processes or other inherent fire hazards. This provision shall not be construed to prohibit the use of normal heating fuels, motor fuels and welding gasses when handled in accordance with other ordinances of the City.

10.63 Noise: No operation shall be carried on which involves noise in excess of the normal traffic noise of the adjacent street at the time of the daily peak hour of traffic volume. Noise shall be measured at the property line and when the level of such noise cannot be determined by observation with the natural senses, a suitable instrument may be used and measurement may include breakdowns into a reasonable number of frequency ranges. All noises shall be muffled so as not to be objectionable due to intermittence, beat, frequency, or shrillness.

10.64 Sewage and Liquid Wastes: No operation shall be carried on which involves the discharge into a sewer, water course or the ground of liquid wastes of any radioactive nature, or liquid wastes of a chemical nature which are detrimental to normal sewage plant operation or corrosive and damaging to sewer pipes and installations:

10.65 Air Contaminants:

- A. Air contaminants and smoke shall be less dark than designated Number One on the Ringleman Chart as published by the United States Bureau of Mines, except that smoke of a density designated as Number One shall be permitted for one four (4) minute period in each one half hour. Light colored contaminants of such an opacity as to obscure an observers view to a degree equal to or greater than the aforesaid shall not be permitted.
- B. Particulate matter or dust as measured at the point of emission by any generally accepted method shall not be emitted in excess of two-tenths grains per cubic foot as corrected to a temperature of five hundred (500) degrees Fahrenheit, except for a period of four (4) minutes in any one half (½) hour, at which time it may equal but not exceed six tenths grains per cubic foot as corrected to a temperature of five hundred degrees Fahrenheit.
- C. Due to the fact that the possibilities of air contamination cannot reasonably be comprehensively covered in this section there shall be applied the general rule that there shall not be discharged from any sources whatsoever such quantities of air contaminants or other material in such quantity as to cause injury, detriment, nuisance or annoyance to any considerable number of persons or to the public in general or to endanger the comfort, repose, health or safety of any such considerable number of persons or the general public or to cause or have a natural tendency to cause injury or damage to business, vegetation or property.

10.66 Odor: The emission of odors that are generally agreed to be obnoxious to any considerable number of persons, shall be prohibited. Observations of odor shall be made at the property line of the establishment causing the odor. As a guide to classification of odor it shall be deemed that strong odors of putrefaction and fermentation tend to be obnoxious and that such odors as associated with baking or the roasting of nuts and coffee shall not normally be considered obnoxious within the meaning of this chapter.

10.67 Gasses: The gasses sulfur dioxide and hydrogen sulfide shall not exceed five (5) parts per million, carbon monoxide shall not exceed five (5) parts per million. All measurements shall be taken at the zoning lot line.

10.68 Vibration: All machines including punch presses and stamping machines shall be so mounted as to minimize vibration and in no case shall such vibration exceed a displacement of three thousands of an inch measured at the zoning lot line. The use of steam or broad hammers shall not be permitted in this zone.

10.69 Glare and Heat: All glare, such as welding arcs and open furnaces shall be shielded so that they shall not be visible from the zoning lot line. No heat from furnaces or processing equipment shall be sensed at the zoning lot line to the extent of raising the temperature of air or materials more than five (5) degrees Fahrenheit.

10.7 SPACE LIMITS. The following space limits are applicable in the I - 1 Zone:

10.71 Minimum lot area for business or industry: ten thousand (10,000) square feet.

10.72 Minimum width of lot: fifty feet (50').

10.73 Maximum building height: No restriction except as limited by gross floor area ratio and by any restrictions which may be imposed by virtue of aircraft approach and turning zone height restrictions.

10.74 Minimum front yard: twenty feet (20').

10.75 Minimum rear yard: None.

10.76 Minimum side yard: None.

10.77 Minimum side yard on street side of corner lot: ten feet (10').

10.78 Maximum ground coverage: seventy-five percent (75%).

10.8 OFF-STREET PARKING AND LOADING. See Article XIII.

10.9 EXCEPTIONS AND MODIFICATIONS. See Article XII.

**ARTICLE XI
HOME OCCUPATIONS**

11.1 Home Occupation, General

11.2 Home Occupation, Limited

11.1 HOME OCCUPATION, GENERAL. A business, occupation or profession carried on within a residential dwelling by the resident thereof, and which shall have the following characteristics:

11.11 There shall be no external evidence of the occupation, with the exception of one unlighted sign, not to exceed thirty two (32) square feet.

11.12 There shall be no emission of smoke, dust, odor, fumes, glare, noise, vibration, electrical or electronic disturbance detectable at the zoning lot line.

11.13 There shall not be a stock of goods on the premises in excess of one hundred (100) cubic feet in volume, none of which shall be of a flammable nature.

11.14 The above listed characteristics of a home occupation shall not be construed to restrict the sale of garden produce grown on the premises, provided this exception shall not extend to allow the operation of a commercial greenhouse or nursery, or the existence of stands or booths for the display of produce grown on the premises.

11.15 Said occupation may include the caring for not more than eight (8) children at one time for hire.

11.16 Room or board for hire, but not for more than two (2) persons. Any business, occupation or profession the operation of which does not meet the aforesaid characteristics, shall not be interpreted to be a home operation despite the fact that it may attempt to operate in a residential building.

**ARTICLE XII
EXCEPTIONS AND MODIFICATIONS**

12.1	Height Exceptions, General Rule	12.3	Lot Area Exception, Existing Platting
12.2	Yard Space, General Rule	12.4	Fences and Hedges, Corner Visibility

12.1 HEIGHT EXCEPTIONS, GENERAL RULE. Any building hereafter erected or altered shall comply with the height limitations of the zone in which it is located except as specified below. However, no exception listed below shall exceed the height restrictions of an aircraft approach and turning zone.

12.11 Height Exceptions, Appurtenances. The following appurtenances may exceed the prescribed height limit except when they would violate the height restrictions of an aircraft approach and turning zone provided they are normally required for a use permitted in the zone in which they are erected or constructed: flagpoles, chimneys, cooling towers, elevator bulkheads, belfries, penthouses for other than living purposes, grain elevators, stacks, silos, storage towers, observation towers, ornamental towers, monuments, cupolas, domes, spires, standpipes and other necessary mechanical appurtenances and their protective housing provided, however, that any of the above except flagpoles and chimneys when located in any zone with a height limit of forty feet (40') or less, shall be allowed only upon finding of the Board that such appurtenances will not be unduly detrimental to the surrounding property.

12.12 Height Exceptions, Electronic Towers. Radio, television, microwave and other electronic transmission or receiving towers in excess of height limits may be allowed in any zone as a conditional use, upon a finding by the Board that topographic or other physical considerations make it necessary that they be located outside of a zone where they are permitted as a matter of right and that the proposed tower or towers will not be unduly detrimental to surrounding property. Exceptions to height restrictions shall not be granted in cases where they would violate height restrictions of an airport approach and turning zone.

12.13 Height Exceptions, Public and Semi-Public Buildings. Public and semi-public buildings and structures such as hospitals, churches, sanitariums, schools and water reservoir towers may exceed the height limits of the zone in which they are located provided that such buildings and structures shall provide at least one (1) additional foot of yard space on each side for each additional foot that such building or structure exceeds the specified height limit of the zone in which it is located and further provided that a finding is made by the Board that such additional height will not be materially detrimental to surrounding property.

12.2 YARD SPACE, GENERAL RULE. Any building, structure or use hereafter erected, altered or established shall comply with the yard space requirements of the zone in which it is located, except as specified below. The required yard space for any building, structure or use and such required yard space shall fall entirely upon land in a zone or zones in which the principal use is permitted. Any required yard space shall be open from thirty inches (30") above the ground to the sky, except as specified herein.

12.21 Yard Space Encroachments, Eaves. Eaves, cornices and similar features may extend one (1) foot into a required yard space, except that eaves may encroach three (3) feet into a yard space when such yard space is ten (10) feet or more in width.

12.22 Yard Space Encroachments, Chimneys. Chimneys when not more than four (4) feet wide, may extend one (1) foot into any required yard space. Chimneys in excess of four (4) wide may extend two (2) feet into any yard space, when such yard is ten (10) feet or more in width, but shall not encroach upon a yard space of lesser width.

12.23 Yard Space Encroachments, Porches and Terraces. Open, uncovered porches or terraces no higher than the first floor above grade on the side of the building to which they are appurtenant and in no event higher than thirty (30) inches above grade of the lot on the side of the building where such porch or terrace is located, may extend into any required side yard. No railing or other barrier higher than thirty-six inches (36") shall be placed around such porch or terrace and no such barrier which interferes appreciably with the passage of light or air shall be within five (5) feet of any property line, except as otherwise provided in this article. Any such porch or terrace when located on a lot at the intersection of two streets or a street and an alley shall comply with the provisions designed to insure proper sight distances as set forth in this chapter for fences and hedges. Any side yard on a corner lot when such yard is twenty (20) feet or more in width may be considered as a front yard for the purposes of determining permitted encroachments.

12.24 Yard Space Encroachments, Rear Yard. Accessory buildings shall be permitted to occupy a required rear yard with the following restrictions:

12.241 Distance from Street and Height. No such accessory building shall be greater than fifteen (15) feet in height, nor be closer than twenty (20) feet from any street line.

12.242 Distance from Inside Lot Line. An accessory building may be constructed within two (2) feet of an inside lot line when the entire structure is within forty (40) feet of the rear property line, or on the rear half of a lot if the adjacent lot is built upon and the accessory building will be entirely to the rear of the line of any principal building on the said neighboring lot.

12.243 Party Walls. Adjoining property owners may construct accessory buildings with party walls in lieu of the two (2) foot side yard, but in compliance with the general location rules of 12.242 above, provided such walls conform with the requirements of the building code, if so adopted, and a finding is made by the Board that such party wall development will be appropriate to topographic conditions and in harmony with the character of development of the neighborhood.

12.25 Yard Space Encroachments, Canopies. Canopies and overhangs on any side of a business building may extend four (4) feet into a required yard space. Signs mounted on the face of any such canopy or overhang shall not exceed eight (8) inches in height in any zone in which flat wall signs are specified. Canopies and awnings on a residential building may extend four (4) feet into any required side yard or seven (7) feet into any required front or rear yard when they are attached to and supported entirely by or from a wall of the building.

12.26 Yard Space Exception, Steep Slopes. Automobile storage garages may be allowed within a required front or side yard when such garage will be entirely below the grade of the lot and after a finding by the Board that topographic conditions make such a location necessary, that such orientation will not create a hazard to automobile or pedestrian traffic in the street, and that such orientation will be in harmony with the character of development of the neighborhood.

12.3 LOT AREA EXCEPTION, EXISTING PLATTING. A single-family dwelling may be built on any platted lot of record containing seventy-five percent (75%) of the required lot area for the district in which the lot is located if said lot was in separate ownership and separate control at the effective date of these regulations, provided the front, side and rear yard requirements for the district in which the lot is located are met and provided dwellings are permitted in the district in which the lot of record is located. It is not the intention of this exception to allow building as a matter of right on a platted parcel which was never intended as a building site, but rather was numbered on a plat for identification purposes under a scheme in which multiple lots were intended to provide one (1) building site. If two (2) or more lots or combinations of lots and portions of lots with continuous frontage in single ownership are of record at the time of passage or amendment of these regulations, and if all or part of the lots do not meet the requirements established for lot width and area, the lands involved shall be considered to be an undivided parcel for the purposes of this article, and no portion of said parcel shall be used or sold in a manner which

diminishes compliance with lot width and area requirements established by these regulations, nor shall any division of any parcel be made which creates a lot with width or area below the requirements stated in these regulations.

12.4 FENCES AND HEDGES, CORNER VISIBILITY. Except in zones allowing the construction of buildings to the property line, there shall be provided an unobstructed view across the triangle formed by joining points measured twenty (20) feet distance along the property line from the intersection of two (2) streets or fifteen (15) feet along both the street and alley line from the intersection of a street and an alley. Within said triangle there shall be no sight obscuring or partly obscuring wall, fence or foliage higher than thirty (30) inches above curb grade or in the case of trees, foliage lower than five (5) feet. Vertical measurement shall be made at the top of the curb on the street or alley adjacent to the nearest side of the triangle or if no curb exists, from the edge of the nearest traveled way.

12.41 Fences and Hedges, Other Than Corner. On portions of a lot not covered by street or alley intersection restrictions, the height of fences or structures of any length, and foliage continuous for five (5) feet or more, shall be limited to forty-two (42) inches on any street line and the front fifty (50) feet of any side lot line. On all other portions of lot lines, fences, hedges and continuous foliage barriers may not exceed a height of eighty (80) inches.

12.42 Fences and Hedges, Within Building Lines. Fences, structures and hedges erected within a portion of a zoning lot on which a principal building, but not an accessory building, may be erected, may conform with height limits of buildings which may be erected on such lot, but shall be subject to any building code provisions, if so adopted, which may be applicable for buildings.

12.43 Fences and Hedges, Measurement Rule. Heights of fences, structures, hedges and other continuous foliage shall be measured from the adjacent top of the street curb, surface of an alley or the official established grade thereof whichever is the higher. On inside lot lines the measurement shall be from the average grade thereof, whichever is higher.

12.44 Fences and Hedges, Exception, Board of Adjustment. The Board may approve, or may direct as a condition for granting an appeal, that fences or plantings of a height in excess of these regulations be placed as shielding between different uses, or between like uses upon agreement between the parties affected thereby, provided that no such approval shall have the effect of reducing corner visibility as provided for herein.

---	---	--

13.1 PURPOSE. It is the intent of these regulations that all buildings, structures and uses of land shall provide off-street parking and loading space in an amount sufficient to meet the needs caused by the building or use of land and that such parking and loading spaces be so oriented that they are in fact readily usable for such purpose.

13.2 NEW STRUCTURES AND ADDITIONS. Each use of land and each building or structure hereafter constructed or established, and each addition to a structure in excess of three hundred (300) square feet, except as herein provided, shall provide off-street parking and loading according to the standards set forth herein. When an addition is made to a building non-conforming as to parking or loading, a conforming amount of parking shall be supplied based upon the size of the addition.

13.3 REDUCTION IN OFF-STREET PARKING AND LOADING. No addition to an existing building shall be constructed which reduces the number of spaces, area or usability of existing parking or loading space unless such building and its addition, conform with the regulations for parking and loading contained herein. Contractual agreements may be made between uses which generate parking demand at different times in such a manner that the requirements of more than one (1) use may be met by the same space, provided the parking demand for each such use involved is in fact met.

| 14.1 | Statement of Intent | 14.5 | Repairs and Maintenance |
| 14.2 | Nonconforming Use of Land | 14.6 | Uses Under Conditional Use |
| 14.3 | Nonconforming Structures | | Provisions Are Not |
| 14.4 | Nonconforming Uses of Structures | | Nonconforming |

14.1 STATEMENT OF INTENT. Within the districts established by this Ordinance or amendments that may later be adopted, there exist lots, structures and uses of land and structures which were lawful before this ordinance was passed or amended, but which would be prohibited, regulated or restricted under the terms of this ordinance or future amendment.

Subject to Article III, it is the intent of this ordinance to permit these nonconformities to continue until they are removed, but not to encourage their continuation. Such uses are declared by this ordinance to be incompatible with permitted uses in the district involved. It is further the intent of this ordinance that nonconformities shall not be enlarged upon, expanded or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same district.

A nonconforming use of a structure, a nonconforming use of land or water, or a nonconforming use of a structure and land in combination shall not be extended or enlarged after passage of this ordinance by attachment on a building or premises of additional signs intended to be seen from off the premises, or by the addition of other uses of a nature which would be prohibited generally in the district involved.

To avoid undue hardship, nothing in this ordinance shall be deemed to require a change in the plans, construction, or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this ordinance and upon which actual building construction has been diligently carried on. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner, except that where demolition or removal of an existing building, such demolition or removal shall be deemed to be actual construction, provided that work shall be diligently carried on until completion of the building involved.

(Code of Iowa, Sec. 414.2)

14.2 NONCONFORMING USES OF LAND. Where, at the effective date of adoption or amendment of this ordinance, lawful use of land exists that is made no longer permissible under the regulations imposed by this ordinance as enacted or amended, such use may be continued, so long as it remains otherwise lawful, subject to the following provisions:

14.21 No such nonconforming use shall be enlarged or increased nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this ordinance.

14.22 No such nonconforming use shall be moved in whole or in part to any other portion of the lot or parcel occupied by such use at the effective date of adoption or amendment of this ordinance.

14.23 If any such nonconforming use of land ceases for any reason for a period of more than ninety (90) days, any subsequent use of land shall conform to the regulations specified by this ordinance for the district in which such land is located.

14.3 NONCONFORMING STRUCTURES. Where a lawful structure exists at the effective date of adoption or amendment of this ordinance that could not be built under the terms of this ordinance by reason of restrictions on area, lot coverage, height, yards, or other characteristics of the structure or its location on

the lots, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

14.31 No such structure may be enlarged or altered in a way which increases its nonconformity.

14.32 Should such structure be destroyed by any means to an extent of more than sixty percent (60%) of its replacement cost at time of destruction, it shall not be reconstructed except in conformity with the provisions of this ordinance.

14.4 NONCONFORMING USES OF STRUCTURES. If a lawful use of a structure, or of structure and premises in combination exists at the effective date of adoption or amendment of this ordinance, that would not be allowed in the district under the terms of this ordinance, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

(Code of Iowa, Sec. 414.1)

14.41 No existing structure devoted to a use not permitted by this ordinance in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located.

14.42 Any conforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this ordinance, but no such use shall be extended to occupy any land outside such building.

14.43 If no structural alterations are made, any nonconforming use of a structure, or structure and premises in combination may be changed to another nonconforming use provided that the Board of Adjustment, either by general rule or by making findings in the specific cases, shall find that the proposed use is equally appropriate to the district than the existing nonconforming use. In permitting such change, the Board of Adjustment may require appropriate conditions and safeguards in accordance with the provisions of this ordinance.

14.44 Any structure or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district in which such structure is located and the nonconforming use may not thereafter be resumed.

14.45 When a nonconforming use of a structure, or structure and premises in combination is discontinued or abandoned for thirty (30) days, the structure thereafter, shall not be used except in conformity with the regulations of the district in which it is located.

14.46 Where nonconforming use status applies to a structure and premises in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land. Destruction for the purpose of this subsection is defined as damaged to an extent of more than sixty percent (60%) of the replacement cost at the time of destruction.

14.5 REPAIRS AND MAINTENANCE. On any nonconforming structure or portion of a structure containing a nonconforming use, work may be done in any period of twelve (12) consecutive months on ordinary repairs, or on repair or replacement of nonbearing walls, fixtures, wiring, or plumbing, to an extent not exceeding ten percent (10%) of the current replacement cost of the nonconforming structure or nonconforming portion of the structure as the case may be, provided that the cubic content existing when it became nonconforming shall not be increased. If a nonconforming structure or portion of a structure containing a nonconforming use becomes physically unsafe or unlawful due to lack of repairs and maintenance, and is declared by any duly authorized official to be unsafe or unlawful by reason of physical condition, it shall not thereafter be restored, repaired, or rebuilt except in conformity with the regulations of the district in which it is located. Nothing in this ordinance shall be deemed to prevent the strengthening of or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official.

14.6 USES UNDER CONDITIONAL USE PROVISIONS NOT NONCONFORMING. Any use permitted as a special exception in this ordinance which is lawfully existing at the date of adoption of this ordinance shall not be deemed a nonconforming use, but shall, without further action, be deemed a conforming use.

A fee of \$150.00 shall be paid to the Clerk at the time the notice of appeal is filed, which the Clerk shall forthwith pay over to the credit of the general revenue fund of the City.

15.4 STAY OF PROCEEDINGS. An appeal stays all proceedings in furtherance of the action appealed from, unless the Building Official from whom the appeal is taken certifies to the Board of

Adjustment after the notice of appeal is filed with him, that by reason of facts stated in the certificate, a stay would, in his opinion, cause imminent peril to life and property. In such case, proceedings shall not be stayed other than by a restraining order which may be granted by the Board of Adjustment or by a court of record on application, and notice to the Building Official from whom the appeal is taken and on due cause shown.

(Code of Iowa, Sec. 414.11)

15.5 POWERS AND DUTIES OF THE BOARD OF ADJUSTMENT. The Board of Adjustment shall have the following powers and duties:

(Code of Iowa, Sec. 414.12)

15.52 Conditional Uses: Conditions Governing Applications: Procedures. To hear and decide only such conditional uses as the Board of Adjustment is specifically authorized to pass on by the terms of this ordinance; to decide such questions as are involved in determining whether conditional uses should be granted; and to grant conditional uses with such conditions and safeguards as are appropriate under this ordinance, and to deny conditional uses when not in harmony with the purpose and intent of this ordinance.

In granting any conditional use, the Board of Adjustment may prescribe appropriate conditions and safeguards in conformity with this ordinance. Violation of such conditions and safeguards when made a part of the terms under which the conditional use is granted, shall be deemed a violation of this ordinance and punishable under Article XVI of this ordinance. The Board of Adjustment shall prescribe a time limit within which the action for which the conditional use is required shall be begun or completed, or both. Failure to begin or complete, or both, such action within the time limit set shall void the conditional use.

A conditional use shall not be granted by the Board of Adjustment unless and until:

- A. A written application for a conditional use is submitted indicating the section of this ordinance under which the conditional use is sought and stating the grounds on which it is requested.
- B. Notice shall be given at least four (4), but not more than twenty (15) days in advance of the public hearing by publication in a newspaper of general circulation in the County.
- C. The public hearing shall be held. Any party may appear in person, or by agent or attorney.
- D. In reviewing an application for a conditional use, the Board of Adjustment shall consider the most appropriate use of the land; the conservation and stabilization of property values; adequate open spaces for light and air; concentration of population; congestion of public streets; the promotion of the public safety, morals, health, convenience and comfort; and the general welfare of the persons residing or working in the general area.

E. The Board of Adjustment shall make a finding that it is empowered under the section of this ordinance described in the application to grant the conditional use, and that the granting of the conditional use will not adversely affect the public interest. In making its finding, the Board of Adjustment shall, where applicable, duly consider the following:

- (1) Ingress and egress to property with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire or catastrophe;
- (2) Off-street parking, loading and service areas where required;
- (3) Economic, noise, dust, heat, glare, or odor effects of the special exception on surrounding properties;

- (7) Required yards and other open spaces.

15.53 Variances: Conditions Governing Application, Procedures. To authorize upon appeal in specific cases such variance from the terms of this ordinance as will not be contrary to the public interest where, owing to the special conditions, a literal enforcement of the provisions of this ordinance would result in unnecessary hardship. A variance from the terms of this ordinance shall not be granted by the Board of Adjustment unless and until:

A. A written application for a variance is submitted demonstrating:

- (1) That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same district;
- (2) That literal interpretation of the provisions of this ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this ordinance;
- (3) That the special conditions and circumstances do not result from the actions of the applicant;
- (4) That granting the variance requested will not confer on the applicant any special privilege that is denied by this ordinance to other lands, structures, or buildings in the same district. No nonconforming use of neighboring lands, structures, or buildings in other districts shall be considered grounds for the issuance of a variance.

B. Notice of public hearing shall be given as in Section 15.52 (B) above.

C. The public hearing shall be held. Any party may appear in person, or by agent or by attorney.

D. The Board of Adjustment shall make findings that the requirements of Section 15.52 have been met by the applicant for a variance.

E. The Board of Adjustment shall further make a finding that the reasons set forth in the application justify the granting of the variance that will make possible the reasonable use of the land, building or structure.

- F. The Board of Adjustment shall further make a finding that the granting of the variance will be in harmony with the general purpose and intent of this ordinance, and will not be injurious to the neighborhood, or otherwise detrimental to the public welfare.

In granting any variance, the Board of Adjustment may prescribe appropriate conditions and safeguards in conformity with this ordinance. Violations of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this ordinance and punishable under Article XXI of this ordinance. Under no circumstances shall the Board of Adjustment grant a variance to allow a use not permitted in the district involved, or any use expressly or by implication prohibited by the terms of this ordinance in said district.

15.6 DECISIONS OF THE BOARD OF ADJUSTMENT. In exercising the above mentioned powers, the Board of Adjustment may, so long as such action is in conformity with the terms of this ordinance, reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination as ought to be made, and to that end shall have powers of the Building Official from whom the appeal is taken. The concurring vote of three members of the Board shall be necessary to reverse any order, requirement, decision, or determination of the Building Official, or to decide in favor of the applicant on any matter upon which it is required to pass under this ordinance, or to effect any variation in application of this ordinance.

(Code of Iowa, Sec. 414.14)

15.7 APPEALS FROM THE BOARD OF ADJUSTMENT. Any person or persons, or any board, taxpayer, department, board or bureau of the City aggrieved by any decision of the Board of Adjustment may seek review by a court of record of such decision, in the manner provided by the laws of the State and particularly by Chapter 414, Code of Iowa.

15.8 ASSISTANCE FROM OTHER DEPARTMENTS. The Board may call on City departments for assistance in the performance of its duties, and it shall be the duty of such departments to render such assistance to the Board as may reasonably be required.

20.9 TERMINATION OF VARIANCE. Where property is in use under the terms of a variance and such use ceases; or in the case of a structure, such structure ceases to exist, then the variance shall terminate, unless the terms of the variance specify otherwise.
